

JOFIMOL JOHNSON

MERN STACK DEVELOPER

Kollam,Kerala | +91 8136969676 | jofimolsj@gmail.com | [LinkedIn](#) | [Github](#)

PROFILE SUMMARY

Aspiring MERN Full Stack Developer with a passion for crafting innovative web applications. Seeking an entry-level position to utilize skills. Proactive team player with a focus on delivering exceptional user experiences. Eager to contribute creativity and technical proficiency to a forward-thinking organization.

TECHNICAL SKILLS

React JS | Javascript | Node JS | Express JS | MongoDB | Redux Toolkit | Html | CSS | Bootstrap | Tailwind css | Material ui

EDUCATION

BACHELOR OF TECHNOLOGY

- Electrical And Electronics Engineering | University Of Kerala | 2013-2017

HIGHER SECONDARY

- State Board of Kerala | 2011-2013

10TH LEVEL

- State Board of Kerala | 2011

INTERNSHIP EXPERIENCE

REACT JS DEVELOPER - INTERN

- Tech Butomy Private Limited (Thiruvananthapuram,Kerala)**
- Collaborated with a team of developers to build dynamic and responsive user interfaces using React.js.
- Completed multiple projects and tasks and received positive feedback.
- Participated in code reviews, daily stand-ups, and sprint planning.

MEARN STACK DEVELOPER - STUDENT INTERN

- Luminar Technolab (Kochi, Kerala)**
- Self-learning, Researching, and Implementing things from outside the box are part of the curriculum.
- I have done multiple projects to master full-stack web development.
- Industry experts assign and review projects and assignments.

PROJECTS

MOVIE BOOKING APP - [Github Link](#) | [Live Link](#)

- Built a movie booking system with distinct admin and user roles, allowing admins to manage movies and users to book tickets with seat selection and date options.
- Implemented user authentication and state management using Redux, ensuring seamless login, booking management, and session handling across the application.
- Developed a dynamic UI with Material UI, featuring a searchable movie catalog, admin and user profiles, and a streamlined booking process.
- Technologies used: React js ,node js, express js,mongo db,redux toolkit, material ui,axios, React-router-dom

BLOG APP - [Github Link](#) | [Live Link](#)

- Built a full-stack blogging platform with user authentication, blog management, and complete CRUD operations.
- Implemented user authentication with login, signup, and session management, and enabled users to create, edit, delete, and view blogs with MongoDB and Mongoose handling database relationships.
- Managed global state using Redux for seamless user authentication and blog operations, ensuring efficient and secure data handling across the application.
- Technologies used: React js ,node js, express js,mongo db,redux toolkit, material ui,axios,React-router-dom

E-COMMERCE APP - [Github Link](#) | [Live Link](#)

- Developed a dynamic E-Commerce app with ReactJS, incorporating user-friendly features. Implemented home, about, and product pages with seamless transitions from product listings to detailed information.
- Integrated secure user authentication, add-to-cart functionality, and advanced product filtering by category, company, and price. Utilized Redux Toolkit for efficient state management
- Delivered a responsive and scalable application for an enhanced shopping experience.
- Technologies used: React js, React router dom, Axios, redux toolkit, tailwind css
